

Hey thank you so much for supporting WHATNEYESORE!

This is a new asset store as you can see, and I am trying my best to create quality assets that the gaming community can use. I've been doing art for a really long time but this is the first time I am contributing back to the gaming community after many years of gaming and arting.

The assets that you've just purchased was made with love and dedication & I would like to hear what you think about it too. Holla at my twitter page if you haven't already <https://twitter.com/whatneyesore>

If there are any feedback or any ideas that you would like to see, don't hesitate to suggest them to me! Oh btw, I am in the midst of creating themed assets for game creation, so stay tuned to my twitter account for updates ;)
